

INNOVATION CHALLENGE

powered by Energie AG

Challenge 1

Automated ESG-compliant sourcing and supplier evaluation

Energie AG is a leading innovative energy supplier that provides half a million of customers with a wide range of energy, infrastructure and Internet services.

Due to the variety of services, we work with many different suppliers, and due to the acceleration of innovation, technology, transparency and sustainability, many new suppliers are needed every year. Validating suppliers against our criteria is very time consuming.

In order to save time in the search for new suppliers and to spend more time on real cooperation, we are looking for an automated research and evaluation tool that is able to perform a supplier evaluation according to our criteria and requirements and automatically generate proposals.

About Energie AG

Energie AG Oberösterreich is a modern and efficient energy and services group. As a provider of electricity, gas, heat, water as well as waste disposal and ICT services, Energie AG stands for the highest quality and reliability of our products, processes and services.

As an infrastructure group, we supply more than 450,000 customers with electricity via the 30,000 kilometres long high and low voltage network. We operate more than 70 power plants (such as hydroelectric, photovoltaic plants, wind) following the highest ecological standards.

Deadline

Please make sure to submit your challenge entries by **January 16, 2024**.
